Projects

Real-Time Collaborative Spreadsheet | Next.js, TypeScript, Tailwind CSS, Firebase

- Constructed a real-time collaborative spreadsheet supporting multi-user editing and live data synchronization using **Firebase**, enabling seamless team-based **data tracking and reporting**.
- Architected a responsive grid with **formula support** and keyboard navigation, improving data entry speed by **25%** — demonstrating focus on operational efficiency and process improvement.
- Integrated **user presence tracking** and identity system for collaborative awareness, reflecting real-world team coordination workflows.

AI-Powered Media SaaS Platform | Next.js, Cloudinary, Prisma, NeonDB, Clerk

- Built a full-stack SaaS platform with AI-driven image transformation, auto-resizing uploads for 5 social media formats (Instagram, Twitter, Facebook) using **Cloudinary's smart gravity-based cropping**.
- Engineered a video upload pipeline with **automatic compression** (quality-auto, MP4 transcoding), persisting metadata (original size, compressed size, duration) to **PostgreSQL** via **Prisma ORM**.
- Integrated **Clerk** for secure authentication with protected routes via Next.js middleware, and deployed on a serverless-ready NeonDB backend.
