## Education

|                                                                                                     |                                  |
|-----------------------------------------------------------------------------------------------------|----------------------------------|
| <b>Vellore Institute of Technology, Bhopal</b><br><i>Bachelor of Technology in Computer Science</i> | 2023 – 2027<br><b>CGPA: 8.70</b> |
| <b>Pt. Deen Dayal Upadhyaya Sanatan Dharma Vidyalaya, Kanpur, U.P.</b><br><i>Class XII</i>          | 2021 – 2022<br><b>CBSE: 86.8</b> |
| <b>Maharishi Vidya Mandir, Fatehpur, U.P.</b><br><i>Class X</i>                                     | 2019 – 2020<br><b>CBSE: 93.6</b> |

## Projects

### Full-Stack Q&A Platform | Next.js 14, Appwrite, TypeScript, Zustand, Tailwind CSS

- Developed a StackOverflow-style Q&A platform with user authentication, question posting, answering, and voting using **Appwrite** as backend-as-a-service.
- Configured **Next.js middleware** to auto-initialize Appwrite database and storage, eliminating manual backend setup.
- Designed a **reputation system** with dynamic score updates and global auth state management using **Zustand with Immer**.

### AI-Powered Media SaaS Platform | Next.js, Cloudinary, Prisma, NeonDB, Clerk

- Built a full-stack SaaS platform with AI-driven image transformation, auto-resizing uploads for 5 social media formats (Instagram, Twitter, Facebook) using **Cloudinary's smart gravity-based cropping**.
- Engineered a video upload pipeline with **automatic compression** (quality-auto, MP4 transcoding), persisting metadata (original size, compressed size, duration) to **PostgreSQL** via **Prisma ORM**.
- Integrated **Clerk** for secure authentication with protected routes via Next.js middleware, and deployed on a serverless-ready NeonDB backend.

## Technical Skills

**Languages:** Python, C++, JavaScript, HTML, TypeScript

**Frameworks:** Next.js, React.js, Node.js, Express.js, Tailwind CSS, REST APIs

**Developer Tools:** Git, Postman, AWS, MongoDB, MySQL, Figma

**Relevant Courses:** Data Structures and Algorithms, DBMS, Operating Systems, Computer Network

## Achievements

- Solved **150+** problems on **LeetCode**, strengthening proficiency in data structures and algorithms.
- Scored **96/100** in **NPTEL Market Analysis** certification, placing in the **Elite** category.

## Positions of Responsibility

### **Core Member — Design Team (MUN Club)**

*Design & Visual Communications*

VIT Bhopal

*Dec 2024 – Nov 2025*

Designed posters, social media creatives, and branding assets for Model United Nations conferences and promotional campaigns.

Collaborated with organizing and outreach teams to ensure consistent visual identity across all event materials.

## Certifications

- Google: The Bits and Bytes of Computer Networking
- NPTEL: Marketing Analytics
- NPTEL: Introduction to Machine Learning
